

Blueflo® PP Filter Housing 222 Series

Blueflo™PP Filter Housing-222 Series is made from pure polypropylene material, light weight and simple configuration design makes the installation and operation easier. The housing is designed to fit 10" and 20" 222 single open end cartridge. The transparent housing bowl can be easily observed with the naked eye to determine whether the internal filter cartridge needs to be replaced. It can be used in the filtration of water and general chemicals in various industries.

Features

- Made from pure virgin PP, low precipitation
- Accepts 10" and 20" 222 O-rings style cartridge, flat closed end
- Wide chemical compatibility
- Transparent housing bowl enables visual inspection of the cartridge

Applications

- Pharmaceuticals
- Food and beverage
- Chemical
- Microelectronics
- Cosmetics
- Ink

Product Specification

Material of Constructions	[Head]:	Pure Virgin PP
	[Bowl]:	Pure Virgin PP
	[Mounting bracket]:	Stainless Steel
	[Sealing]:	EPDM, Viton, NBR
Connections	[Inlet/Outlet]	3/4" NPT
	[Vent]	1/4" NPT
	[Drain]	1/4" NPT
Performance	[Max. Operating temperature]:	60 °C
	[Max. Operating DP]:	6bar @ 21 °C
